

August 12, 2019

To our Shareholders:

Please find attached the unaudited financial results for the quarter ended June 30, 2019 for CoastalSouth Bancshares, Inc. (the “Company” or “COSO”), the parent company of Coastal States Bank (“CSB” or the “Bank”).

Loan and deposit growth across CSB’s various lines of business continues to be strong during the second quarter. Our Mortgage Banker Finance division generated another quarter of record production, and our presence in our newest markets, Savannah and Atlanta, continues to blossom. In Savannah, the Company purchased a location where a planned branch is anticipated to be opened during early 2020. In Atlanta, the addition of an advisory board with business leaders from around the city serves to further integrate CSB into the community. The North Georgia and Lowcountry markets are active banking markets as well, and we have been able to continue to attract new customers.

In order to support the strong growth we saw in the first half of 2019, the Company raised approximately \$20 million in additional common equity through a private placement of shares in June. This additional capital will support the continued growth of the Company while maintaining a strong regulatory capital position.

Additionally in June, the Bank launched its new logo and branding, including a new website at www.coastalstatesbank.com. The Bank’s new compass logo and emphasis on “CSB” is designed to unify our Bank brand and identity across multiple regions, while still honoring the coastal beginnings of the franchise. Wherever CSB operates, we are still Local. And proud of it.

Operating Highlights for the Quarter Ended June 30, 2019

The Company reported net income of \$617 thousand for the second quarter of 2019, compared to net income of \$18 thousand in the first quarter of 2019 and net income of \$340 thousand in the second quarter of 2018.

Net interest income before provision for credit losses was \$6.1 million in the second quarter of 2019, compared to \$5.7 million in the first quarter of 2019 and \$4.5 million in the second quarter of 2018. Net interest margin for the second quarter of 2019 was 4.17% as compared to 4.18% for the first quarter of 2019 and 4.26% for the second quarter of 2018. Net interest margin was stable in the first half of 2019 due to the growth rate in earning assets exceeding that of interest-bearing deposits, despite rising cost of funds. The cost of funds for the second quarter of 2019 was 92 basis points compared to 80 basis

points for the first quarter of 2019 and 43 basis points for the second quarter of 2018. The increase in cost of funds is primarily driven by promotional rates associated with the acquisition of new deposit relationships and increases in rates for deposit accounts due to the rising rate environment during 2018 and the first part of 2019.

Provision for credit losses was \$624 thousand in the second quarter of 2019, compared to \$645 thousand in the first quarter of 2019 and \$103 thousand in the second quarter of 2018. The provision in the second quarter of 2019 was impacted by charge-offs on one legacy syndicated credit and additional provision related to the growing loan portfolio.

Noninterest income was \$1.8 million in the second quarter of 2019, compared to \$1.3 million in the first quarter of 2019 and \$1.6 million in the second quarter of 2018. The increase in noninterest income in the second quarter was attributable to mortgage banking income of \$407 thousand and a gain on sale of securities of \$350 thousand, as compared to mortgage banking income of \$286 thousand and no gain on sale of securities in the first quarter of 2019. In addition, the Company recorded at \$434 thousand gain on sale of \$6.4 million of government guaranteed loans sold in the second quarter of 2019 as compared to a \$428 thousand gain on sale of \$8.9 million in government guaranteed loans sold in the first quarter of 2019.

Noninterest expense was \$6.5 million in the second quarter of 2019, as compared to \$6.4 million in the first quarter of 2019 and \$5.5 million in the second quarter of 2018. The increase in non-interest expense from quarter to quarter was due to payment of executive severance.

Balance Sheet Highlights for the Quarter Ended June 30, 2019

Total assets at June 30, 2019 were \$663 million, compared to \$615 million at March 31, 2019 and \$478 million at June 30, 2018. The increase in total assets as compared to the prior quarter is primarily attributable growth in loans and deposits during the quarter.

Total gross loans held for investment at June 30, 2019 were \$431 million, compared to \$405 million at March 31, 2019 and up from \$290 million at June 30, 2018. The quarterly increase in loans held for investment is due to new loan production generated from lines of business across the Company. Total loans held for sale at June 30, 2019 were \$73 million, compared to \$59 million at March 31, 2019 and \$33 million at June 30, 2018. The increase in loans held for sale is due to increased mortgage warehouse activity from the Mortgage Banker Finance division.

Total deposits at June 30, 2019 were \$568 million, up from \$542 million at March 31, 2019 and up from \$419 million at June 30, 2018. The increase in total deposits is attributed to new customer growth and

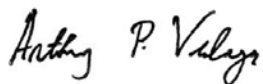

an increase in seasonal deposits in the Lowcountry market. Noninterest bearing deposits make up 24.2% of total deposits as compared to 23.1% of total deposits at March 31, 2019 and 24.9% at June 30, 2018. As we target new relationships with competitive rates on interest bearing accounts, our bankers are focused on ensuring that we win the entire relationship, including operating accounts, so that we can preserve our attractive mix of deposits.

Tangible book value per share at June 30, 2019 was \$10.65. CSB is currently well capitalized with a common equity tier 1 capital ratio of 12.03%, a leverage ratio of 10.98%, and a total risk-based capital ratio of 12.62%.
