To our Shareholders:
CoastalSouth Bancshares, Inc. (the "Company") is pleased to announce net income of $\$ 3.1$ million, or $\$ 0.38$ per diluted share, for the first quarter of 2021, compared to $\$ 1.7$ million net income, or $\$ 0.21$ per diluted share, for the fourth quarter of 2020. With a strong first quarter, the Company is positioned to continue its growth trajectory with increased profitability.
"Q1 was an outstanding quarter for CSB," said Steve Stone, President and Chief Executive Officer of the Company and its wholly owned subsidiary, Coastal States Bank ("CSB"). "Our team members did an amazing job of assisting customers with second draw PPP loans, while building strong organic loan pipelines. Even more importantly, our customer acquisition and deposit growth were near record levels. With the recent announcement regarding our acquisition of Cornerstone Bank, CSB is off to a great start to 2021. The Cornerstone acquisition is expected to be accretive to our tangible book value, accretive to earnings, and accretive to franchise value."

- Tangible book value of $\mathbf{\$ 1 2 . 5 6}$ per share, a 4.0\% annualized increase from December 31, 2020
- On April 22, 2021 announced the acquisition of Cornerstone Bancshares, Inc.

During the first quarter, the Company's momentum continued as deposits grew $\$ 128.9$ million to $\$ 1.02$ billion. This growth was driven by deepening our relationships with existing customers and continuing to convert relationships with new customers that we assisted through the PPP. In the first quarter, our bankers continued to see loan pipelines rebound with commercial customers resuming projects that had been put on hold during 2020, given the uncertainty of the COVID-19 pandemic. While much focus was placed on ensuring our customers had access to the 2021 round of PPP loans, resulting in new gross originations of $\$ 78.3$ million at March 31, 2021, core loans held for investment still grew by $\$ 13.6$ million in the first quarter setting the stage for strong core loan growth in 2021.

## COASTALSOUTH BANCSHARES, INC.

Throughout the first quarter, the Company's credit metrics remained strong. The Bank continues to see a decline in its NPA ratio, which was down to $0.32 \%$ at the end of the first quarter of 2021 as compared to $0.40 \%$ at the end of the fourth quarter of 2020. Requests for loan modification have slowed, with only one new modification granted during the quarter related to issues stemming from the COVID-19 pandemic.

In April, the Company announced that it had entered into a definitive agreement to acquire Cornerstone Bancshares, Inc., the parent company of Cornerstone Bank. This will be the Company's second acquisition since 2017, continuing our strategic goal of growth through acquisition. Cornerstone Bank, with $\$ 214$ million in total assets as of March 31, 2021, is based in Atlanta, GA and further enhances the Company's growing footprint in this desirable market. The acquisition is expected to be accretive to the Company's tangible book value at transaction close and is expected to generate approximately 15\% EPS accretion in 2022.

The Company continues to deliver on its strategic plans to build a high-performing community bank in the Southeast. Revenue growth is being realized, even in the face of a challenging interest rate environment. The Company continues to hire talented bankers to help drive organic growth. In addition, over the last several years, the Company has made strategic investments in our platform to support continued organic and acquisitive growth.

## Financial Results

## Income Statement

Net income was $\$ 3.1$ million for the first quarter of 2021 compared to a net income of $\$ 1.7$ million in the fourth quarter of 2020 and a net income of $\$ 954$ thousand in the first quarter of 2020. Compared to the fourth quarter of 2020, the increase in net income was primarily attributable to lower provision for credit losses during the quarter as there were additional reserves related to COVID-19 during the fourth quarter. Compared to the first quarter of 2020, the increase in net income was primarily attributable to an increase in net interest income; offset by an increase in noninterest expense primarily salaries and employee benefits in line with growth in revenues.

Interest income was $\$ 11.1$ million in the first quarter of 2021 , compared to $\$ 11.1$ million in the fourth quarter of 2020 and $\$ 8.1$ million in the first quarter of 2020. The first quarter of 2021 compared to the fourth quarter of 2020 remained stable. The increase in the first quarter of 2021 compared to the first quarter of 2020 is due to growth in the loan portfolio coupled with the expansion of the investment portfolio throughout 2020.

Interest expense was $\$ 1.3$ million in the first quarter of 2021, compared to $\$ 1.4$ million in the fourth quarter of 2020 and $\$ 1.6$ million in the first quarter of 2020. Compared to the fourth quarter of 2020, the decrease in interest expense is due to a 10-basis point decrease in the cost of interest-bearing deposits. Compared to the same quarter last year, the decrease in interest expense is due to a 71-basis point decrease in interest bearing liabilities, offset by costs for subordinated debt that was issued in the third quarter of 2020.

Net interest margin for the first quarter of 2021 was $3.55 \%$, compared to $3.59 \%$ for the fourth quarter of 2020 and $3.74 \%$ for the first quarter of 2020. Compared to the fourth quarter of 2020 , net interest margin compressed by 4 basis points, with some compression related to higher recognition of origination fees of PPP loans in the fourth quarter of 2020. Compared to the same quarter last year, net interest margin was compressed by 19 basis points and was attributable to lower market interest rates following the Federal Reserve's rate adjustments at the end of the first quarter of 2020, which impacted the yield on certain variable rate loans. To combat margin compression, management made changes to lower deposit rates given the changes in the interest rate environment. Management also re-deployed excess liquidity into additional earning assets, such as investment securities, loan purchases, and a resell agreement.

The cost of funds for the first quarter of 2021 was 50 basis points compared to 56 basis points for the fourth quarter of 2020 and 96 basis points for the first quarter of 2020. Cost of funds decline in both periods is primarily driven by a decrease in costs of interest-bearing deposits.

The cost of deposits was 41 basis points in the first quarter of 2021 as compared to 48 basis points in the fourth quarter of 2020 and 97 basis points in the first quarter of 2020. Beginning in the first quarter of 2020, the Bank began lowering deposit rates as the Federal Reserve decreased the federal funds rates twice, bringing index rates down to near zero. Management expects the cost of deposits to modestly decline over the next several quarters as pricing changes continue to take effect.

Provision for credit losses was $\$ 5$ thousand during the first quarter of 2021, compared to $\$ 1.4$ million in the fourth quarter of 2020 and $\$ 531$ thousand in the first quarter of 2020. There were no additional reserves required related to the impact of COVID-19 in the first quarter of 2021, where significant provisions were recorded in the fourth quarter of 2020 and first quarter of 2020 for $\$ 593$ thousand and $\$ 377$ thousand, respectively. Additionally, general reserves were increased in the fourth quarter of 2020
due to loan portfolio growth. Charge-off and recovery activity was not significant during the first quarter of 2021, fourth quarter of 2020, or first quarter of 2020.

Noninterest income was $\$ 1.8$ million in the first quarter of 2021 , compared to $\$ 2.1$ million in the fourth quarter of 2020 and $\$ 1.4$ million in the first quarter of 2020. The decrease of $\$ 352$ thousand during the first quarter of 2021 compared to the fourth quarter of 2020 was primarily due to a $\$ 302$ thousand gain on sale of securities during the fourth quarter of 2020. There was no sale of securities during the first quarter of 2021. Compared to the first quarter of 2020, the increase in noninterest income of $\$ 321$ thousand was primarily attributable to the increase in mortgage banking income of \$237 thousand, government guaranteed loans of $\$ 168$ thousand, and other noninterest income of $\$ 177$ thousand; offset by decreases in other categories, primarily gains in sale of securities.

Noninterest expense was $\$ 7.5$ million during the first quarter of 2021, as compared to $\$ 8.2$ million during the fourth quarter of 2020 and $\$ 6.2$ million during the first quarter of 2020 . The decrease of $\$ 762$ thousand during the first quarter of 2021 as compared to the fourth quarter of 2020 was primarily due to a $\$ 523$ thousand decrease in salaries and employee's benefits due to changes in compensation related accruals in the fourth quarter of 2020 and $\$ 251$ thousand in other professional services. Compared to the first quarter of 2020, the increase of $\$ 1.3$ million in noninterest expense was also attributable to an increase of $\$ 935$ thousand in salaries and employees' benefits, primarily due to performance-based compensation programs, and software and other technology expense related to the enhancement of information technology infrastructure, other professional services, and occupancy and equipment expenses related to capital projects completed during 2021.

Income tax expense was $\$ 966$ thousand in the first quarter of 2021, as compared to $\$ 409$ thousand in the fourth quarter of 2020, and $\$ 314$ thousand in the first quarter of 2020. The increase in income tax expense is primarily attributable to increased earnings.

## Balance Sheet

Total assets as of March 31, 2021 were $\$ 1.181$ billion, up from $\$ 1.148$ billion at December 31, 2020 and $\$ 777$ million at March 31, 2020. Total assets increased moderately by approximately $\$ 33$ million as compared to the prior quarter and is primarily attributable to growth in loans and investment securities, which was fueled by deposit growth.

Cash and cash equivalents at March 31, 2021 was $\$ 124$ million, compared to $\$ 157$ million at December 31, 2020, and up from $\$ 48$ million at March 31, 2020. The decrease in cash and cash equivalents as compared to the prior quarter is primarily attributable to a decrease in federal funds sold as the funds are deployed in other interest earning assets.

Investment securities at March 31, 2021 were $\$ 130$ million, compared to $\$ 121$ million at December 31, 2020, and up from $\$ 78$ million at March 31, 2020. As interest rates have declined significantly starting in 2020, management has continued to look to deploy liquidity into higher interest earning assets through the securities portfolio.

Total gross loans held for investment at March 31, 2021 were $\$ 754$ million, compared to $\$ 703$ million at December 31, 2020, and up from $\$ 484$ million at March 31, 2020. The quarterly increase in loans held for investment of $\$ 51$ million is attributed to $\$ 14$ million in net new core loans and $\$ 37$ million in net new PPP loans originated during the quarter. Total loans held for sale at March 31, 2021 were $\$ 116$ million, compared to $\$ 113$ million at December 31, 2020 and $\$ 119$ million at March 31, 2020.

The allowance for loan losses ("ALL") at March 31, 2021 was $\$ 7.1$ million, compared to $\$ 7.0$ million at December 31, 2020, and from $\$ 4.4$ million at March 31, 2020. The balance in the first quarter of 2021 was relatively stable compared to the fourth quarter of 2020. Compared to the first quarter of 2020, the increase in provision is primarily related to the impacts of COVID-19 and growth of the loan portfolio. Total ALLL to total LHFI excluding PPP was $1.19 \%$ at March 31, 2021 as compared to $1.21 \%$ and $0.92 \%$ at December 31, 2020 and March 31, 2020, respectively. Management will continue to monitor the impacts COVID-19 pandemic and progress of economic recovery as they assess the appropriate level of reserves.

Nonaccrual loans decreased by $\$ 784$ thousand to $\$ 2.7$ million at March 31, 2021 from $\$ 3.5$ million at December 31, 2020. The decrease in nonaccrual loans was due to the payoff in full of one relationship due to the borrower's liquidation of collateral. Troubled debt restructures have remained stable over the last year. Total nonperforming loans to gross LHFI outstanding were $0.39 \%$ at March 31, 2021, 0.53\% at December 31, 2020, and 1.02\% at March 31, 2020.

Nonperforming assets to total assets decreased by 8 and 50 basis points to $0.32 \%$ at March 31, 2021, compared to $0.40 \%$ at December 31, 2020, and $0.82 \%$ at March 31, 2020, respectively. There was no change in the balance of Other real estate owned of $\$ 810$ thousand between the first quarter of 2021 and the fourth quarter of 2020. A decrease of $\$ 654$ thousand occurred from the first quarter of 2020 to the first quarter of 2021 due to liquidation of properties during 2020.

Total deposits at March 31, 2021 were $\$ 1.020$ billion, an increase from $\$ 892$ million at December 31, 2020 and from $\$ 660$ million at March 31, 2020. The increase in total deposits is attributable to continued new customer acquisition across the franchise and increases in many of our existing customer's deposit accounts as a result of the PPP program. Noninterest bearing deposits accounted for $27.9 \%$ of total deposits as compared to $25.7 \%$ of total deposits at December 31, 2020 and $22.1 \%$ at March 31, 2020. As the Company wins new loan customers and targets new deposit relationships with competitive rates on

interest bearing accounts, our bankers are focused on ensuring that we win the entire relationship, including operating accounts, so that we can preserve our attractive mix of deposits.

Federal Reserve Bank advances associated with the Paycheck Protection Program Liquidity Facility ("PPPLF") at March 31, 2021 were $\$ 11$ million, compared to $\$ 111$ million at December 31, 2020. The decrease is attributable to payoff of those advances during the quarter due to the inflow of customer deposits during the first quarter of 2021. There were no PPPLF advances in the first quarter of 2020.

Subordinated debt, net of debt issuance costs, remained at approximately $\$ 14.5$ million at March 31, 2021 and December 31, 2020. There was no subordinated debt at March 31, 2020.

Federal Home Loan Bank advances ("FHLB") remained steady at $\$ 20$ million at March 31, 2021, December 31, 2020, and March 31, 2020.
